

# Testimonials

“I’ve known Mr. Marco J. van Daal since 1995. Due to the fact that he has been in the industry for 20 years, he knows every major player in the industry, not just us but also the international customers of Scheuerle, Nicolas and Kamag. The international experience that he brings to the table benefits every level in a transport and/or lift organization, starting from the pre-engineering phase, to equipment selection, to logistics and execution. His in-depth knowledge has been of great value to numerous individuals and companies around the world. Not only is he a true asset to our industry but I consider him a personal friend as well.”

**- Bernd Schwengsbier, President, Scheurle, Nicolas, Kamag**

“When I need information on transporters, I turn to Marco. His worldwide exposure and experience has led him to become one of the most knowledgeable engineers on hydraulic transporters and SPMT’s in our industry.”

**- Kent Goodman, Director of Construction Technology, Fluor Daniel (retired)**

“Marco’s great knowledge and best practices have been a contribution to a better understanding of the highlighted techniques and enabled us to perform our activities in a better and safer way and thus provide a better service to our clients.”

**- Sergio Madero, Vice President, Mamut de Colombia**

“The application of sound engineering principles give new and experienced professionals the ability to tackle increasingly complex problems. This highly specialized information was once available to only a handful of specialists worldwide, Marco has made it accessible to all.”

**- Jeff Dacey P.E., Rigging Manager, Bantrel Constructors**

“Marco is a very experienced Heavy Transport & Lift professional with a keen eye towards safety, not only in terms of welfare of personnel but in the very real aspect of security of lifts and transports.”

**- John Jackson, Managing Director, Fagioli USA**

“I continue to be impressed with his efforts to become one of the thought leaders in our industry. His book, articles and speaking engagements are of very high quality.”

**- Jeff Latture, Barnhart Crane & Rigging, Vice President**
